

# Channel

## Soil Surfactant

Active Ingredients:  
Blend of Surfactants 95%  
Inert Ingredients 5%  
**NOT A PLANT FOOD INGREDIENT**

Channel is a safe and effective long-lasting soil surfactant designed for water management on fine turfgrass. Channel is designed to reduce the effects of localized dry spots which are caused by hydrophobic soil conditions. Channel helps promote infiltration and movement of water in the rootzone.

**Directions for General Turf Use:** Greens, Tees, Fairways, Lawns & Sports Turf

**Monthly Application:** Apply 4-6 fl. oz. of Channel in a minimum of 2 gallons of carrier water per 1,000 sq. ft. (120-175 mL of Channel in a minimum of 8 liters of carrier water per 0.4 hectares). Irrigate sufficiently after each application to remove Channel from leaf surfaces. Repeat monthly.

**Long Term (90-120 days) Application:** Apply 8-10 fl. oz. of Channel in a minimum of 2 gallons of carrier water per 1,000 sq. ft. (240-295 mL of Channel in a minimum of 8 liters of carrier water per 0.4 hectares). Repeat application 7-10 days later. Irrigate sufficiently to remove Channel from leaf surfaces. Re-apply after 90 days, or as needed.

Add Channel to the spray tank after all other chemicals. Agitate thoroughly to ensure appropriate mixing. Safety glasses and gloves are recommended when handling chemicals.

---

**CAUTION: KEEP OUT OF REACH OF CHILDREN  
MAY BE HARMFUL IF SWALLOWED**  
Read entire label for additional precautionary statements

---

**In Case of Emergency or Spill, contact Hazmat Response 1-800-424-9300**

According to the Office of Pesticides and Toxic Substances of the U.S. Environmental Protection Agency, no clearance is required under 40 CFR 180.1001 for use on non-crop vegetation. Not approved for edible crop use.
