

# Infuse

## Injectable or Sprayable Soil Surfactant

Active Ingredients:  
Non-Ionic Surfactants 17%  
Chelation Complex 7%  
Inert 76%

NOT A PLANT FOOD INGREDIENT

Infuse is designed to enhance the infiltration and penetration of water applied through irrigation systems. Infuse can be applied through conventional irrigation systems or by conventional ground spray equipment.

**Directions for General Turf Use:** Greens, Tees, Fairways, Lawns & Sports Turf

**Injection Application:** Apply 16-32 fl. oz. (5-10 ppm) per acre; (1 to 2 liters per 0.4 hectares). Infuse can be applied through all injection systems. Apply recommended rates of Infuse monthly, or as needed throughout the growing season. Check results after application to determine levels of water infiltration. If needed, adjust rate 3 to 6 fl. oz. (90 - 175 mL) increments. Repeat monthly.

**Spray Equipment Application:** Apply 1-2 fl. oz. of Infuse in a minimum of 2 gallons of carrier water per 1000 sq. ft (35-70 mL of Infuse in a minimum of 8 liters of carrier water). Irrigate after each application to remove Infuse from leaf surfaces.

Add Infuse to the spray tank after all other chemicals. Agitate thoroughly to ensure appropriate mixing. Safety glasses and gloves are recommended when handling chemicals.

---

CAUTION: KEEP OUT OF REACH OF CHILDREN  
MAY BE HARMFUL IF SWALLOWED

Read entire label for additional precautionary statements

---

**In Case of Emergency or Spill, contact Hazmat Response 1-800-424-9300**

According to the Office of Pesticides and Toxic Substances of the U.S. Environmental Protection Agency, no clearance is required under 40 CFR 180.1001 for use on non-crop vegetation. Not approved for edible crop use.
