

# BENEFITS OF FISH

2-4-1

Neptune's Harvest is an organic fertilizer made from fresh North Atlantic fish. It is made by a unique cold process that protects the vitamins, amino acids, enzymes and growth hormones. It also contains all the micro and macro nutrients naturally found in fish. The nitrogen and other nutrients are chelated, so they are readily available for plants consumption. Unlike fish emulsions, Neptune's Harvest retains the fish proteins and oils and has no unpleasant odor. University studies have shown Neptune's Harvest to outperform chemical fertilizers.

# BENEFITS OF SEAWEED

0-0-1

Neptune's Harvest Seaweed Plant Food is an organic storehouse of over 60 naturally occurring major and minor nutrients and amino acids. It's growth promoting substances (Auxins, Cytokinins, Gibberellins) enhance plant development, color and vigor. Seaweed has also been found to increase plant hardiness and resistance to adverse environmental conditions, such as early frost, extreme heat and lack of moisture. Used as a seed inoculant, seaweed fertilizer increases and accelerates germination, and enhances the rapid development of a healthy root system. Seaweed is an excellent addition to any fertilization program.

# BENEFITS OF FISH/SEAWEED

2-3-1

Neptune's Harvest Organic Fish/Seaweed Blend Fertilizer gives you the best of both products with a perfect blend of fish hydrolysate and seaweed, ensuring a complete fertilization program. Growers using our fish/seaweed blend fertilizer on a regular basis have reported increased marketable yields and improved shelf life on fruits and vegetables. Fish and Seaweed are known to build the natural sugars in plants. Flowers and foliage will be stronger and more colorful. Blooms will be more plentiful, fragrant and longer lasting.

# TESTIMONIALS

Can you beat that for 1 bulb! One stem with 20 blossoms, another with 18 buds! Neptune's Harvest, won't use anything else.

*Bob Davis  
Winthrop, MA*

Neptune's Harvest has been my only fertilizer for the past 3 years. It can be used on anything that grows. My garden always shows increased vegetable production, on huge plants. Neptune's Harvest sprayed on my Kentucky bluegrass lawn, every month during the growing season, made it more drought tolerant, more disease resistant, thicker and always dark green in color even in the summer. Tulips sprayed before the flower sets showed bigger blooms and more longevity. My roses also respond very well to Neptune's Harvest. Every year the canes on the roses thicken and pests such as aphids, seem to do less and less damage. Thank you Neptune's Harvest for your wonderful product.

We had great crops using your product last year. It kept all the deer, raccoons, groundhogs and rabbits away. We had no damage from these types of pests. The only thing we are changing this year is that we will use the one with kelp for extra boost. Thank you.

Since mid-spring of 1994, I have been using Neptune's Harvest liquid fish to boost blossoms, vegetable production and for the over-all health of all my landscape specimens. Quite literally, there is nothing that won't benefit from this water-soluble, organic fertilizer. Hanging baskets, newly-started seedlings and indoor plants have also become stronger, healthier and more vigorous. I find that portions of my gardens, fed with Neptune's Harvest on a regular basis, were more resistant to the usual summer onslaught of insects and diseases.

Amazing results also came with using Neptune's Harvest liquid fish as a compost enhancer. I would state, with confidence, that Neptune's Harvest will cut in half the normal time required to harvest rich, usable compost. Happy Gardening!
