Regulate Plus™ Pellet

Super Wetting Agent & Penetrant Pellet
Provides even water penetration in soil and cures
Localized Dry Spots (LDS)

Derived from: 100% Blend of surfactants and Salicylic Acid

- Ideal to eliminate “hot spots” on greens due to localized dry spots.
- Perfect for spot treatment of dry spots on greens, tees, bunker banks, and fairways.
- Pellets are suitable for hand watering with most hose end applicators
- Each pellet is suitable to treat an area of 8,000 sq ft – 10,000 sq ft. (Case of 12x8 oz pellets covers 96,000 – 120,000 sq. ft.)
- Pellets will be effective for 3-4 weeks and can be applied as often as needed
- **Salicylic Acid** reduces wilt by improving the turf plant’s ability to maintain water within its cell walls under heat stress.
- Regulate Plus Pellets™ are 8 ounces and come individually packaged in boxes of 12.

■ NON PHYTOTOXIC

Directions for Use:

Insert open container into hose end applicator (Most hose-end applicators are suitable for use with this pellet) One tablet covers approximately 8,000-10,000 square feet of turf. Severity of localized dry spot, water temperature, water pressure and application technique may cause coverage to vary. Each Regulate Plus Pellet lasts approximately 40 minutes in a hose-end applicator. Pellets will be effective for 3-4 weeks and can be applied as often as needed to relieve turf stress.

Caution:

Keep Away from Children and Domestic Animals.

Store in cool, dry place.

Warranty:

This product is made under rigid quality control but the user must determine its suitability for its intended uses. The seller and/or the manufacturer shall not be liable for any loss, injury or damage direct, indirect or consequential due to the use or inability to use this product and will only replace it with a like quantity if it is defective. No other warranty, express or implied, is made about its suitability. This can be waived only by an officer of JADA Corp. in writing
